Mexico City, May 27-28, 1993

**RESOLUTION 296 (XIII)**

**APPLICATION OF ARTICLE 14 OF THE TREATY OF TLATELOLCO**

The General Conference,

**Reiterating** that, the functioning of the Control System established in the Treaty of Tlatelolco forms an inseparable whole and that, the provisions contained in Article 14 of the Treaty must therefore be complied with by Member States in order for said System to be effective;

**Considering** that, compliance with those provisions does not pose any practical difficulties for the Governments of Member States;

**Noting** that, some Member States are not opportunely submitting their semestral reports stating that, no activity prohibited under the provisions of the Treaty has occurred in their respective territories;

**Recalling** previous Resolutions, especially Resolution 276 (XII) of May 10, 1992,

Resolves:

1. **To urge** the Governments of Member States to opportunely comply with the obligations derived from Article 14 of the Treaty.

. . .

2. To **emphasize** the need to comply with Article 14 by submitting a semi-annual report as indicated in said Article, and simultaneously transmit a copy of any report they may submit to the International Atomic Energy Agency, which relates to matters that are the subject of the Treaty pertinent to the work of the Agency, in order to contribute to the effectiveness of the Control System established in the Treaty of Tlatelolco.
